Re: MB Docket No. 10-56

Dear Chairman Genachowski:

On behalf of the Tallahassee Urban League, I request that you approve the proposal of Comcast to join with NBC Universal.

Comcast's generosity throughout Tallahassee is well-known. When Leon County Commissioner Andrew Gillum began the Digital Harmony program to provide desktop computers to our disadvantaged children, Comcast supplied free Internet access. The company also offers courtesy Internet service to many of our schools and libraries where people who cannot afford computers use them for job hunting or school research. Our low-income population needs to develop computer skills to work their way out of poverty, and Comcast is there to help them. The Tallahassee Urban League also works toward supplying this community with the opportunity to build these skills and we therefore deeply appreciate that Comcast assists us and others in this mission.

Comcast is also well-known to us. The company makes possible our annual Dinner and Concert, our largest event, and provides many in-kind services such as PSAs, complimentary broadband, and the skills of its employees to us throughout the year.

Comcast is a corporation with a strong sense of self and local commitment. The Tallahassee Urban League is proud to partner with the company and work alongside it in addressing digital literacy issues. Please keep this in mind as you consider Comcast's proposed venture with NBC Universal.

Sincerely,

Rev. Ernest Ferrell
Executive Director
Tallahassee Urban League

CC: Commissioner Michael J. Copps
Commissioner Robert M. McDowell
Commissioner Mignon Clyburn
Commissioner Meredith Attwell Baker
